

The ideal system for disinfecting **all surfaces** in **total security!**

- **A mobile, all-in-one system for use wherever you wish**
- **No chemical products**
- Tested under the **AFNOR NF T72-281** standard for airborne disinfection of surfaces
- **Eliminates at least 99.99% of micro-organisms, bacteria and viruses** (including SARS-COV-2 / Coronavirus)
- The best cost/efficiency ratio available for surface disinfection
- Adapted to all types of surfaces **without side-effects or deterioration**
- A surface disinfection concept offering **confidence and reassurance to your clients and personnel**

How UV acts

UV-C rays penetrate the heart of the DNA at 254 nanometres, the optimal wavelength for eradicating microorganisms (virus, bacteria, algae, yeast, mould...), disrupting the cell metabolism through to total destruction.

The advantages of BIO-SCAN®

- **A certified, tried and tested process**
- Treatment time of **just 8 seconds!**
- **Practical, ergonomic and easy to use** by anyone
- **No chemical products**, no risk to health or the environment
- Economical: low purchase price and fast return on investment
